"How Dundee Sustainable Technologies is making mine processing greener"

During PDAC 2023, [Jean-Philippe Mai](#), president and CEO of [DUNDEE Sustainable Technologies Inc.](#), was interviewed by [Tamer ELBOKL](#), Editor-in-Chief at the [Canadian Mining Journal](#), about DST's novel and environmentally friendly gold extraction and arsenic stabilization metallurgical processes.

To access the article and learn more about DST's CLEVR Process and GlassLock Process: <https://www.northernminer.com/video/video-how-dundee-sustainable-technologies-is-making-mine-processing-greener/1003853744/>

We thank [The Northern Miner](#) for this opportunity.
