

DST at the Future Minerals Forum & Mining Indaba 2025

To kick off 2025, DST's President & CEO, Jean-Philippe Mai, was in Saudi Arabia for the Future Minerals Forum that was taking place in Riyadh in January.

A few weeks after, Mr. Mai and DST's VP Environment, Brent Johnson, attended Mining Indaba in Cape Town, South Africa.

Their presence at various events and meetings enabled DST to explore new opportunities and reconnect with companies and organizations in those regions.
