

DST at the Global Mining Symposium 2023

DST had the pleasure of participating in the [Global Mining Symposium](#) held on May 25 in Toronto, which was organized by The Northern Miner.

DST sponsored the Thought Leadership Panel, where its President & CEO, Jean-Philippe Mai, shared his thoughts on the following question: Can Good for Business also be Good for the Environment?

While attending the GMS and being interviewed by Alisha Hiyate, Editor-in-Chief of The Northern Miner, Jean-Philippe Mai also had the opportunity to present DST's two key technologies: novel and environmentally-friendly metallurgical processes for gold extraction and arsenic stabilization.

- » An article was published by The Northern Miner: "[Dundee's process innovations help miners get greener](#)".
