

DST and the LIAMforum 2023

DST had the pleasure to participate in the [LIAMforum'23](#)'s panel session "Back to Zero? Growth, Scarcity, Circular Economy and what Gen Zs can do about it" that was held on October 5th, online.

Everyone was invited to register to this online forum, but especially young people as "LIAMforum provides a platform for young people to discuss their ideas, vision and role in tackling the challenges we face today. A platform for thought leaders and participants from academia, industry, think tanks, multi-lateral institutions and governments, to share their ideas and concerns with, and listen to, the next generation."
