

DST at the International Metals Symposium 2024

On December 1st and 2nd, 2024, the International Metals Symposium was held in London, UK. Our VP Environmental Performance & Sustainability, Brent Johnson, attended this event organized by The Northern Miner.

During the event, he participated in two panels as a panelist:

- Government of Quebec: Leading the Green Energy Shift
- Sustainable Gains: How Smart Resources and Operations Management Can Drive Business Efficiency

Mr. Johnson also spoke with Colin McClelland, The Northern Miner's interim editor-in-chief, about our CLEVR and GlassLock processes.

Videos of the panels and interview are available on The Northern Miner's website:
