

DST at Investing in African Mining Indaba 2024

From February 5 to 8, Brent Johnson, DST's Vice-President of Environmental Performance and Sustainable Development, represented the company at Investing in African Mining Indaba (Mining Indaba) in Cape Town, South Africa.

On February 7, Brent took part in the parallel event organized by Investissement Québec International: Québec's Innovative Mining Technologies and services, to talk about our novel metallurgical processes for the mining industry - the CLEVR and GlassLock Processes.

As part of this 2024 edition, DST was also part of the Canadian delegation organized by the High Commission of Canada, as well as MICA-CEMI's trade mission.
