

DST at PDAC 2024

From March 3 to 6, DST participated as an exhibitor at PDAC 2024 in Toronto, Canada. Thanks to Jean-Philippe Mai, Arved Marin, Brent Johnson and Joey Isabelle, we were able to promote the company and our environmentally friendly processes - the CLEVR Process™ (gold extraction) and the GlassLock Process™ (arsenic stabilization).

DST also attended events such as The Canada-Africa Chamber of Business 25th Annual African Mining Breakfast & MineAfrica's 22nd Annual Investing in African Mining Seminar. It was great to engage with our Ghanaian and Namibian friends particularly about the optimism around the continent and the many great project opportunities.
