

DTD à Extraction 2025

Du 16 au 20 novembre 2025, l'équipe de DTD était à Phoenix pour Extraction 2025. Olivier Sanfaçon, Directeur des opérations, et Antoine Maltais, CPI procédé, ont fièrement représenté la compagnie.

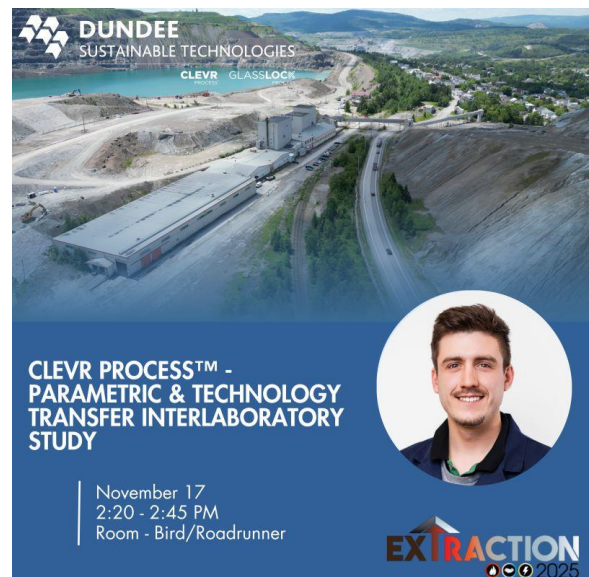

Durant l'évènement, ils ont présenté les deux études réalisées et écrites par l'équipe.

« Keynote: Arsenic Removal and Stabilization from Enargite, Arsenopyrite and Tennantite Copper/Gold Concentrates » – en tant que conférencier principal lors de la session technique « Mineral Processing – 9 ».

The slide features the Dundee Sustainable Technologies logo at the top left, with 'CLEVR GLASSLOCK' below it. The main image is a close-up of a dark, crumpled material. On the right is a circular portrait of a man. The text on the slide reads: 'KEYNOTE: ARSENIC REMOVAL AND STABILIZATION FROM ENARGITE, ARSENOPIRYTE AND TENNANTITE COPPER/GOLD CONCENTRATES'. Below this, the date and time are listed as 'November 19, 1:30 - 1:55 PM' and the location as 'Room - Deer/Scorpion'. The 'EXTRACTION 2025' logo is in the bottom right corner.

Et « CLEVR Process™ - Parametric & Technology Transfer Interlaboratory Study » – lors de la session technique « Cross cutting- Responsible Mining & Processing: Critical Raw Material valorisation ».

The slide features the Dundee Sustainable Technologies logo at the top left, with 'CLEVR GLASSLOCK' below it. The main image is an aerial view of an industrial facility. On the right is a circular portrait of a man. The text on the slide reads: 'CLEVR PROCESS™ - PARAMETRIC & TECHNOLOGY TRANSFER INTERLABORATORY STUDY'. Below this, the date and time are listed as 'November 17, 2:20 - 2:45 PM' and the location as 'Room - Bird/Roadrunner'. The 'EXTRACTION 2025' logo is in the bottom right corner.
