

DST at the Outbound Mission to South Africa & Mining Indaba 2026

To kick off 2026, DST's VP Environment, Brent Johnson, was part of the delegation for the Outbound Mission to South Africa organized by MICA/CEMI, in Johannesburg and Cape Town. As part of the mission, the delegation also attended Mining Indaba and side events where Canada was proud to showcase its leadership in responsible mining, innovation and more.

Mr. Johnson's presence on a panel focused on Powering a Greener Future in mining, as well as at various events, visits and meetings enabled DST to explore new opportunities and reconnect with companies and organizations in those regions.

Outbound Mission to South Africa
February 03 to 12, 2026
